Project Manager · Construction

Leads capital projects with a focus on cost control, quality execution, and long-term asset performance

Maintenance Technician

Preventive maintenance and emergency response

Governance & Board Support

Structured governance support through meeting coordination, documentation management, and operational guidance. AGM attends regularly scheduled Board meetings monthly, or more frequently at the Board's request, and will coordinate special meetings as needed to address operational matters, capital projects, or regulatory requirements.

The firm maintains familiarity with applicable provisions of the Washington Condominium Act (RCW 64.34) and Washington Uniform Common Interest Ownership Act (RCW 64.90), along with other statutes affecting condominium governance, and assists the Board in understanding its fiduciary obligations and operational responsibilities.

STRUCTURE01 Board Governance & Structure Review of Board composition and operating procedures to ensure compliance with the Association's Governing Documents and CC&R's Board Composition Officer Roles Term Length & Elections Voting Practices	PREPARATION02 Meeting Preparation Establish a regular meeting schedule and framework that support decision-making, consistent governance, and efficient Board discussion; develop Board packets organizing materials, updates, action items, and supporting documentation Board packet includes: Agenda · Management Report · Monthly Financial Report (by the 15th)

BOARD REPORTING

Monthly financial reports delivered to the Board via Board Portal by the 15th of the month

Interim Compliance Review

In addition to AGM's inspections, the Board may provide AGM with identified violations by Board members, which have been approved by the Board for processing in accordance with the Association's Compliance Policy.

Compliance inspections are performed weekly and include observation of front yards, visible side yards, exterior of home, and parking. Following the inspection, a warning letter will be issued, and the violation will then be processed in compliance with the enclosed compliance procedure.

REVIEW01 Open Violation Records Review open violation records to maintain an accurate picture of the active compliance pipeline between inspections.	VERIFICATION02 Compliance Status Confirmation Following the cure period, the Board will inform AGM whether the violation remains open or the Homeowner has achieved compliance.
RELEASE03 Compliance Notice Upon approval from the Board, AGM will release approved violation notices to the Homeowner in accordance with the Compliance Policy. Assessment of fines and final enforcement decisions remain the sole responsibility of the Board.	TRACKING & CLOSURE04 Log Updates & Compliance Confirmation The Board will update the violation log to reflect either confirmed compliance and closure, or that the violation remains open and is being escalated under the Compliance Policy.

Facilities, Maintenance & Capital Projects

AGM's Construction & Facilities team protects asset value through proactive maintenance, vendor oversight, and capital planning, preserving asset condition, reducing deferred costs, controlling capital spending, and aligning long-term investment with reserve and budget strategy.
